

## (OKB) Weed brush

The weed brush can be linked to the (mini)shovel, (mini)crane, tractors, spike, etc. as long as the minimum oil yield is 25 litres.

- By using a movable function with the pivot in front of the vehicle, there is a large swivel range possible. Actually 70 degrees to the left and the right, which ensures that the weed brush can move far besides the vehicle. This gives a good view on the brush.
- The weed brush is designed with an oscillating construction, which ensures that the brush follows the ground. Because of this, it is not necessary to correct the height by unevenness of +/- 15 cm. At the same time, this allows the angle of the brush to be patched, by lifting or dropping the frame, for a more or less aggressive working.
- The diameter of the brush is 750 mm (Option 1000 mm).
- The brush can be operated with two hydraulic functions.
- Available with a brush of steel sheets or steel cable.
- Weight 200 kg.

	Types	Description	Price
➤	OKBS	Fixed version	€ 1.680,-
➤	OKBM	Mechanical swivel version	€ 2.100,-
➤	OKBZ	Hydraulic swivel version	€ 2.350,-

The prices are without attachment parts, for these parts see pages 60-64. For more information:

## Options Weed brush

Edge knife

Rubber flap

Tilting

**Edge knife:** The edge cutter ensures that the edges, for example from a lawn, are cut tightly. The edging knife is equipped with an obstacle protection by means of a heavy spring.

**Rubber flap:** The rubber flap ensures that the weeds do not fly far away. The rubber flap can be adjusted in several positions.

**Tilting 15 degrees:** The option allows the machine to tilt the brush 15 deg.

Options	Description	Price
➤ OKBF	Movable rubber flap	€ 300,-
➤ OKBVA800	Extended arm (800mm instead of 650mm)	€ 75,-
